***CCC Small Business Center Success
The Rag Bag
Joanne Fisher***

“Take advantage and learn all you can through the Small Business Center classes before you even start planning for your small business. Be informed early on and it will save you a lot in time and money in the long run. The Small Business Center at CCC has been such a valuable resource for us at the Rag Bag. The instructors are professional and knowledgeable in their fields and happy to answer any questions. They allowed us to pick their brains and we have been successful at putting into practice many things learned in class and see our sales increasing each year. There are also so many networking opportunities to take advantage of while taking the classes. Our time taking the Small Business Center classes was time well invested.”
