Cost:
Students will register for this course a total of three times as listed below.

- 10/6/2014  Tuition: $180.00
  (EMS 3000 Anatomy & Physiology)

- 11/11/2014 Tuition: $180.00
  Student Accident Insurance Fee: $1.30

- 4/22/2014  Tuition: $180.00
  Clinical Fee: (Uniforms and equipment) $250.00
  + $16.00 Malpractice Insurance

Books: Approximately $600.00

Background Check and Urine Drug Analysis for Clinical Practice: Approximately $50.00
Course Description:
In this course we build upon skills and assessments learned in the EMT-Basic course, and provide students with the knowledge they need to provide advanced level care. Topics include but are not limited to, anatomy and physiology, advanced airway management, IV therapy and emergency drug therapy, cardiology, EKG interpretation, and medical and trauma patient assessment. Students will have many opportunities for hands on experience in the clinical setting.

Course Prerequisites:
• Current certification as EMT-Basic (NC or National Registry)
• High School Diploma or GED
• Passing grade on reading and math entrance exam

Required Immunizations for Clinical Practice:
• Negative TB skin test within the last year (Negative PPD)
  If previous reaction to medication you will need negative chest x-ray within last 5 years. For those never tested, dual testing is required.
• Tetanus Vaccination within the last 10 years
• Flu Vaccination within the last calendar year
• Measles, Mumps and Rubella (2 dose series) or positive blood titer
• Hepatitis B Vaccination or signed declination of same or positive blood titer (3 dose series)
• Varicella vaccination, positive blood titer, or physician documentation of previous infection
